

- **General-Ability of Oregon’s Agriculture Programs to Meet CZARA Management Measure Requirements**
  - Existing comment (slight modification)
  - Need to pull out language that speaks more to meeting WQS/designated uses that CZARA MMs.
  - Source: Programs-General (and maybe some other categories)
- **Agriculture-Extent of Nonpoint Source Pollution from Agriculture**
  - Existing comment, expand to include pro/con (now just on how we didn’t prove our case, add comments that speak to problems due to ag runoff)
  - Sources: Programs General, Extent of Pollution from Ag, Env-Gen, Env-Water Use
- **General-Effectiveness of Oregon’s Agriculture Programs for Achieving Water Quality Standards and Protecting Designated Uses**
  - Pull some language from above existing comment
  - Source: Programs-General, Env-Water Use, Env-General (and maybe some other categories?)
- **General-Effectiveness of Agriculture Water Quality Management Area Program for Meeting CZARA Management Measures (Focus on programs and processes/implementation)**
  - Existing comment but revise to just focus on implementation aspects. Leave enforcement discussion for new summary comment.
  - Sources: Effectiveness of AWQMP, Adequacy of AWQMP
- **General-Need for Oregon’s Agriculture Programs to Have Greater Focus on Prevention Rather than Addressing Water Quality Impairments After They Occur**
  - New comment
  - Sources: Restoration vs Protection, 55-f
- **General-Effectiveness of ODA’s Enforcement of Agriculture Programs**
  - New comment (pull out relevant lang from existing AWQMP summary comment)
  - Sources: Adequacy of AWQMP, Effectiveness of AWQMP, Enforcement
- **General—Inadequacy of Oregon Water Resources Department’s (OWRD) Water Use Basin Program for Meeting Irrigation Management Measure**
  - Existing comment. Just make sure 65-G incorporated.
- **Agriculture-Buffers**
  - Existing comment
  - Sources: Ag Buffers
- **Agriculture-Pesticides**
  - Existing Comment
  - Sources: Ag related Pesticides
- **Pesticides-General**
  - New comment—create new summary comment to capture general comments related to pesticides/toxics that don’t relate specifically to ag or forestry.
  - May need to break into a couple of sub categories based on themes in comments?
  - Sources: Ag Pesticides; Fish Toxicity (maybe others)
- **Agriculture-CAFOs**

- New comment
- Sources: Env-CAFO and a few CAFO related comments at beginning of Programs-General
- **Agriculture-Grazing**
  - New comment
  - Sources: Some buffers (specific to grazing?), and Management measures, voluntary MMs
- **Agriculture-Need for Additional Management Measures**
  - Existing comment
  - Sources: Management measures (and other categories)
- **Agriculture-Addressing Legacy Issues**
  - Existing comment
  - Sources: Ag-Legacy Issues
- **Agriculture-Effectiveness of Existing Monitoring and Tracking Programs**
  - Existing comment
  - Sources: Monitoring and Tracking
- **Agriculture-Economic Achievability of Management Measures**
  - New comment
  - Sources: Economic Achievability
